

Marina Stormwater Discharge Permit Work Session

March 11, 2010

Step 3 – Filing a Notice of Intent

Filing Online

Jennifer Rowden

NHDES Lakes Management and Protection Program

603.271.2963

Jennifer.Rowden@des.nh.gov

What do I have to do?

Step 1: Determine eligibility of activities that fall under this permit, if any.

Step 2: Develop a Stormwater Pollution Prevention Plan (SWPPP)

Step 3: File a Notice of Intent (NOI)

Step 4: Inspection, monitoring, reporting and corrective actions

Filing Your Notice of Intent (NOI)

- **To file online or to download form:**

<http://cfpub.epa.gov/npdes/stormwater/enoi.cfm>

- **For help filing online:**

Environmental Protection Agency Central Data Exchange

Warning Notice

EPA's Central Data Exchange Registration procedure is part of a United States Environmental Protection Agency (EPA) computer system, which is for authorized use only. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action. All information on this computer system may be monitored, recorded, read, copied, and disclosed by and to authorized personnel for official purposes, including law enforcement. Access or use of this computer system by any person, whether authorized or unauthorized, constitutes consent to these terms.

Privacy Statement

EPA will use the personal identifying information which you provide for the expressed purpose of registration to the Central Data Exchange site and for updating and correcting information in internal EPA databases as necessary. The Agency will not make this information available for other purposes unless required by law. EPA does not sell or otherwise transfer personal information to an outside third party. [\[Federal Register: March 18, 2002 \(Volume 67, Number 52\)\]\[Page 12010-12013\]](#)

[CDX Home](#) > Terms & Conditions

The access and use of CDX Registration for the electronic submittal of environmental information require the creation of a user ID and password that I must maintain and keep confidential. I will review the following steps concerning the creation and maintenance of a user ID and password.

Warning Notice

EPA's Central Data Exchange Registration procedure is part of a United States Environmental Protection Agency (EPA) computer system, which is for authorized use only. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action. All information on this computer system may be monitored, recorded, read, copied, and disclosed by and to authorized personnel for official purposes, including law enforcement. Access or use of this computer system by any person, whether authorized or unauthorized, constitutes consent to these terms.

Privacy Statement

EPA will use the personal identifying information which you provide for the expressed purpose of registration to the Central Data Exchange site and for updating and correcting information in internal EPA databases as necessary. The Agency will not make this information available for other purposes unless required by law. EPA does not sell or otherwise transfer personal information to an outside third party. [\[Federal Register, March 18, 2002 \(Volume 67, Number 52\)\]](#)[\[Page 12010-12013\]](#)

Choosing a CDX Password

For CDX registration purposes, I agree to select a password which will not be easily guessed (e.g., my name, my children's names, birthdays, etc.).

This password will be at least eight characters long and contain a mix of letters and numbers.

Protecting my CDX Password

I agree to protect my CDX password.

I will not divulge my password to any other individual; I will not store it in an unprotected location; and I will not allow it to be written into computer scripts to achieve automated login.

Actions to take if my CDX Account has been Compromised

If I have determined that my CDX account has become compromised, I agree to contact the CDX Technical Support staff at 1-888-890-1995 as soon as possible.

Terminating my CDX Account

I agree to notify CDX within ten working days if my duties change and I no longer need to interact with the CDX on behalf of my organization. I agree to make this notification via either the CDX web interface or by notifying the CDX Technical Support staff at 1-888-890-1995. This notification will allow CDX to deactivate my account and protect it from potential abuse by others.

I have reviewed these terms and conditions.

Welcome to EPA's Electronic Notice of Intent (eNOI) System!

Electronic Notice of Intent (eNOI) System for Stormwater Discharges Associated with Construction and Industrial Activity

The eNOI system allows you to...

- **Fill out and edit** an Notice of Intent (NOI) or Notice of Termination (NOT) for construction activities
- **Fill out and edit** an Notice of Intent (NOI) or Notice of Termination (NOT) for industrial activities
- **Fill out and edit** an No Exposure Certification (NOE) for industrial activities
- **Fill out and edit** an Low Erosivity Waiver (LEW) for construction activities

You no longer have to be the certifying official to use the eNOI system. You can now fill out a draft eNOI and save it for later certification and electronic signature by an appropriate official. Simply provide the name and email address of the person you want to certify the eNOI and the system will send that person an email with instructions. If you are entering an eNOI and find that you need to stop and come back later, you can save your work and return later.

More information is provided by clicking on the beside the questions. You may also click on ?Help? in the header located at the top right of each page to view frequently asked questions and glossary terms.

To obtain coverage under one of the EPA's stormwater general permits, the construction site or industrial facility operator must prepare and submit a complete and accurate Notice of Intent. Discharges are not authorized if your NOI is incomplete or inaccurate or if you were never eligible for permit coverage.

Below are a few links that you may reference:

- For information regarding the NPDES permit program, go to www.epa.gov/npdes
- EPA's website on construction activities (www.epa.gov/npdes/stormwater/cgp) - includes the Construction General Permit and fact sheet, SWPPP guidance, and much more.
- EPA's website on industrial activities (www.epa.gov/npdes/msgp) - includes the Multi-Sector General Permit and fact sheet, SWPPP guidance, monitoring guidance, industrial fact sheets, and much more.

☐ Frequently Asked Questions ☒ Glossary **Go**

The keyword search will display results like those below.

Frequently Asked Questions - General:

- How do I obtain permit coverage?
- What is the National Pollutant Discharge Elimination System (NPDES) Stormwater Program?
- What kinds of stormwater discharges are required to have NPDES stormwater permit coverage?
- What is required of regulated entities under the NPDES Stormwater Program?
- How will I receive correspondence about my NOI?
- How do I check the status of my form?
- May I terminate someone else's NOI?
- What happens if the certifying official changes?
- What happens when the general permit expires?
- MS4: What is a Municipal Separate Storm Sewer System (MS4)?

Frequently Asked Questions - Industrial:

- How does a facility operator obtain coverage under EPA's Multi-Sector General Permit (MSGP)?
- What do I need to do if I discharge to an impaired water?
- Why is there a waiting period after I submit my NOI for industrial activities?
- How do I terminate my permit coverage under the Multi-Sector General Permit?
- When does the EPA's Multi-Sector General Permit (MSGP) apply?
- Which facilities require coverage under EPA's Multi-Sector General Permit (MSGP)?
- How does an industrial facility operator determine whether coverage under the Multi-Sector General Permit (MSGP) applies?
- How do I determine my facility's sector(s) of industrial activity?
- Are there different requirements depending on the type of activities that are conducted at my facility?
- How do I determine if I meet the eligibility requirements with respect to threatened or endangered species and fish?
- May I use another certifying official's endangered species determination for the same property?

Additional Help Text: Profile

This screen allows you to view your user account information.

The screenshot shows the 'User Profile' page of the U.S. Environmental Protection Agency's 'Electronic Notice of Intent Online Stormwater Application'. The page has a dark blue header with the EPA logo on the left, the title 'Electronic Notice of Intent Online Stormwater Application' in the center, and navigation links 'HOME', 'HELP', 'PROFILE' (highlighted with a red circle), and 'LOGOUT' on the right. Below the header is a 'User Profile' section with a sub-header 'User Profile' and a 'User Information' tab. The 'User Information' section contains a message: 'You can change your role and view information below by clicking "Save" button. To change any other profile information, please click on MyCDX link.' Below this message are form fields for 'First Name' (RACHEL), 'Last Name' (SMITH), 'Email' (TEST@TEST.COM), 'Company' (CONSTRUCTION INC), 'Address Line1' (10306 EATON PL.), 'City' (Fairfax), 'State' (VA), 'ZIP' (22030), and 'Role' (Certifier). A 'Default View' dropdown menu is open, showing options: 'Select the the Role', 'Staff', and 'Certifier'. At the bottom of the form are two questions: 'Question 1 : which high school you graduated from?' and 'Question 2 : In what city were you born?'. Each question has a corresponding 'Answer' field with a red question mark icon. The 'Answer 1' field contains seven asterisks, and the 'Answer 2' field contains seven asterisks. At the bottom of the form are 'Cancel' and 'Save' buttons. The footer of the page displays the EPA logo and the text 'U.S. Environmental Protection Agency'.

EPA Permit Number

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Based on the answers given to previous questions and based on eligibility requirements in the Industrial Multi-Sector General Permit, the permit number you are seeking coverage under is:

Permit Number = NHR050000

Is this correct?

Yes ☒ No ☐

To check this, please refer to Appendix B of the MSGP-2008 [PDF].

Click "No" if one of your earlier answers was incorrect.

Answering "No" will take you back to the beginning of the eNOI system so that you can begin answering the questions again.

Latitude and Longitude

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Provide the facility's/site's latitude and longitude in one of three formats: (1) degree, minutes, seconds; (2) degrees, minutes, decimal; or (3) degrees, decimal.

You can obtain your facility's/site's latitude and longitude through Global Positioning System (GPS) receivers, U.S. Geological Survey (U.S.G.S) quadrangle or topographic maps, and EPA's web-based siting-tools, among other methods. For the CGP, LEW or NOE, EPA requests that you take measurements from the approximate center of the site. For the MSGP, EPA requests you take measurements from the location of your facility's stormwater outfall. If there is more than one outfall present, measure at the primary outfall (i.e., the outfall with the largest volume of stormwater discharge associated with industrial activity).

You must specify which method they used to determine latitude and longitude. If a U.S.G.S. topographic map is used, applicants are required to specify the scale of the map.

Based on the facility address, the eNOI system has determined the Latitude/Longitude of your facility.
Latitude: **38.8920° N** Longitude: **77.0281° W**

Use any one of the three formats provided:

☐ Latitude: ° ' " N
(Degrees/Minutes/Seconds)

Longitude: ° ' " W (Do not enter negative numbers.)
(Degrees/Minutes/Seconds)
If your Degrees only has 2 digits, please put a Zero (0) in front of it.

☐ Latitude: ° ' . N
(Degrees/Minutes/Decimal)

Longitude: ° ' . W (Do not enter negative numbers.)
(Degrees/Minutes/Decimal)
If your Degrees only has 2 digits, please put a Zero (0) in front of it.

☒ Latitude: 38 . 8920 ° N
(Degrees/Decimals)

Longitude: 77 . 0281 ° W (Do not enter negative numbers.)
(Degrees/Decimals)

Method used to determine the site's latitude and longitude :

☐ USGS topographic map

What was the map scale of the USGS topographic map?

☐ GPS

☒ EPA web site

☐ Other

Discharge of Stormwater

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Indicate if your facility was previously covered by an NPDES permit, and if so, please include the tracking number. You can find the tracking number assigned to your previous NOI on EPA's NOI Search website <http://www.epa.gov/npdes/noisearch>. Enter the estimated area of industrial activity at your site exposed to stormwater. This will be the same area addressed in your SWPPP. Also indicate whether stormwater from your site will be discharged into a municipal separate storm sewer system (MS4). If you check "Yes" then identify the name of the MS4 operator in the box provided.

Have stormwater discharges from your site been covered previously under an NPDES permit ? 

Yes ☐ No ☐

Estimated area of industrial activity at your site exposed to stormwater :  (acres)

Does your facility discharge stormwater into a municipal separate storm sewer system (MS4)? 

Yes ☐ No ☐

If yes, name of MS4 operator :

Receiving Waters and Wetlands

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

In order to complete this NOI you must assess the potential effects of stormwater discharges and stormwater discharge related activities on federally listed endangered and threatened species and any designated critical habitat that exists on or near your site. In making this determination, you will need to consider areas beyond the immediate footprint of the construction or industrial activity and beyond the property line, including those that could be affected directly or indirectly by stormwater discharges.

Enter the name of the water that receives stormwater from your facility (directly and/or through an MS4) : 

Merrimack River (This field requires a valid waterbody name do not enter "unnamed", "nothing", or "NA".)

Are any of your discharges into any segment of an "impaired" water? 

Yes ☒ No ☐

Water Quality Standards

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

State water quality agencies are responsible for setting water quality standards for waters within the state's boundaries. Check EPA's website <http://www.epa.gov/npdes/msgp> to determine if the water(s) that will receive stormwater from your site are designated as either a Tier 2 or Tier 2.5 water.

Are any of your discharges into, or within one linear mile upstream of any portion of a receiving water designated by the state or tribal authority under its antidegradation policy as a Tier 2 (or Tier 2.5) water (water quality exceeds level necessary to support propagation of fish, shellfish, wildlife and recreation in and on the water)?

Yes ☐ No ☐

Has the receiving water(s) been designated by the state or tribal authority under its antidegradation policy as a Tier 3 water(Outstanding Natural Resource Waters)?

Yes ☐ No ☐

Federal Effluent Limits and Sector-Specific Requirements

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Your facility may be subject to effluent limitation guidelines which describe additional limits and monitoring requirements for your facility. Please review these requirements, described in Part 6.2.2 of the MSGP - 2008, and check the appropriate boxes below.

Are you requesting coverage under the MSGP for any stormwater discharges subject to effluent limitation guidelines ?

Yes ☐ No ☒

If yes, which effluent limitation guidelines apply to your stormwater discharge ?

40 CFR Part/Subpart	Eligible Discharges	Affected MSGP Sector	Check if applicable
Part 411, Subpart C	Runoff from material storage piles at cement manufacturing facilities	E	<input type="checkbox"/>
Part 418, Subpart A	Runoff from phosphate fertilizer manufacturing facilities that comes into contact with any raw materials, finished product, by-products or waste products (SIC 2874)	C	<input type="checkbox"/>
Part 423	Coal pile runoff at steam electric generating facilities	O	<input type="checkbox"/>
Part 429, Subpart I	Discharges resulting from spray down or intentional wetting of logs at wet deck storage areas	A	<input type="checkbox"/>
Part 436, Subpart B, C, or D	Mine dewatering discharges at crushed stone mines, construction sand and gravel mines, or industrial sand mines	J	<input type="checkbox"/>
Part 443, Subpart A	Runoff from asphalt emulsion facilities	D	<input type="checkbox"/>
Part 445, Subparts A & B	Runoff from hazardous waste and non-hazardous waste landfills	K, L	<input type="checkbox"/>

If you are a Sector 5 (Air Transportation) facility, do you anticipate using more than 100,000 gallons of glycol-based deicing/anti-icing chemicals and/or 100

For marinas and boat repair facilities there are NO effluent limits.

Standard Industrial Classification (SIC) Code

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Select either the four-digit Standard Industrial Classification (SIC) code or two character activity code that best describes the principal products or services provided at the facility identified in this application. See Appendix D of the MSGP - 2008 for a complete list.

Primary SIC Code : ?

4493 - Marinas

- OR -

For industrial activities defined in 40 CFR 122.26(b)(4)(i)-(xi) that do not have SIC codes that accurately describe the principal products produced or services provided, select a 2-character Activity Code : ?

Select an Activity Code

- N/A - Other stormwater discharges designated by the Director as needing a permit (see 40 CFR 122.26(a)(9)(i)(C) & (D)) or any facility discharging stormwater associated with industrial activity not described by any of Sectors A-AC. NOTE: Facilities may not elect to be covered under Sector AD. Only the Director may assign a facility to Sector AD.
- HZ - Hazardous Waste Treatment, Storage, or Disposal Facilities, including those that are operating under interim status or a permit under subtitle C of RCRA
- LF - All Landfill, Land Application Sites and Open Dumps, except Municipal Solid Waste Landfill (MSWLF) Areas Closed in Accordance with 40 CFR 258.60
- SE - Steam Electric Generating Facilities, including coal handling sites

Stormwater Pollution Prevention Plan Information

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Your SWPPP must be available to EPA, state, tribal and local officials as well as the public. Identify the name, telephone number, and email address of the person who will serve as a contact for issues related to stormwater management at your facility. This person should be able to answer questions related to stormwater discharges, stormwater pollution prevention plan implementation, and other issues related to stormwater permit coverage, or have immediate access to individuals with that knowledge. This person does not have to be the facility operator, but should have intimate knowledge of stormwater management activities at the facility.

In addition you must also provide the location (address) of the SWPPP. Generally, a copy of your SWPPP should be kept at the site. If it is not possible to store a copy of the SWPPP at an on-site location you must post a notice that states the SWPPP location near the main entrance of the site. Remember, you must implement the SWPPP at the time you start your construction project or your facility begins to discharge stormwater. If you are making your SWPPP publicly available on a website also provide the appropriate Internet URL address.

Multi-Sector General Permit Notice of Intent to Discharge

Operator Information Project/Site Information Discharge Information Industrial Sectors SWPPP Information **Endangered Species Info** Review Certification

Endangered Species Protection

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

In order to complete this NOI you must assess the potential effects of stormwater discharges and stormwater discharge related activities on federally listed endangered and threatened species and any designated critical habitat that exists on or near your site. In making this determination, you will need to consider areas beyond the immediate footprint of the construction or industrial activity and beyond the property line, including those that could be affected directly or indirectly by stormwater discharges.

Based upon the instruction provided in Appendix E of the MSGP or Appendix C of the CGP, indicate which permit criterion (A, B, C, D, E, or F) you used to satisfy your eligibility obligations to applicable threatened or endangered species.

☐ Criterion A.
No federally-listed threatened or endangered species or their designated critical habitat are likely to occur in the "action area"; or

☐ Criterion B.
Consultation between a Federal agency and the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service (together, the "Services") under section 7 of the ESA has been concluded. Consultations can be either formal or informal, and would have occurred only as a result of a separate federal action (e.g., during application for an individual wastewater discharge permit or the issuance of a wetlands dredge and fill permit).
The consultation must have addressed the effects of your facility's stormwater discharges, allowable non-stormwater discharges, and stormwater discharge-related activities on federally-listed threatened or endangered species and federally-designated critical habitat, and must have resulted in either:

- a biological opinion finding no jeopardy to federally-listed species or destruction/adverse modification of federally-designated critical habitat; or
- written concurrence from the Service(s) with a finding that the facility's stormwater discharges associated with industrial activity, discharge-related activities and allowable non-stormwater discharges are not likely to adversely affect federally-listed species or federally-designated critical habitat; or

☐ Criterion C.

Historic Preservation

Please do not include ampersands, semicolons, single apostrophes or quotation marks when you are filling out the forms; these values will automatically be removed.

Coverage under this permit is available only if your stormwater discharges, allowable non-stormwater discharges, and stormwater discharge-related activities meet one of the historic preservation criteria below. In order to be eligible for coverage under this permit, you must follow the procedures in [Appendix F](#) to determine which one of the following four criteria (A-D) you meet:

- ☐ Criterion A.
Your stormwater discharges and allowable non-stormwater discharges do not have the potential to have an effect on historic properties and you are not constructing or installing new stormwater control measures on your site that cause subsurface disturbance; or
- ☐ Criterion B.
Your discharge-related activities (i.e., construction and/or installation of stormwater control measures that involve subsurface disturbance) will not affect historic properties; or
- ☐ Criterion C.
Your stormwater discharges, allowable non-stormwater discharges, and discharge-related activities have the potential to have an effect on historic properties, and you have consulted with the State Historic Preservation Officer (SHPO), Tribal Historic Preservation Officer (THPO), or other tribal representative regarding measures to mitigate or prevent any adverse effects on historic properties, and you have either (1) obtained and are in compliance with a written agreement that outlines all such measures, or (2) been unable to reach agreement on such measures; or
- ☐ Criterion D.
You have contacted the State Historic Preservation Officer, Tribal Historic Preservation Officer, or other tribal representative and EPA in writing informing them that you have the potential to have an effect on historic properties and you did not receive a response from the SHPO, THPO, or tribal representative within 30 days of receiving your letter.

You must certify on your Notice of Intent which criterion you have met prior to submitting your Notice of Intent. If you have been unable to reach agreement with a SHPO, THPO, or other tribal representative regarding appropriate measures to mitigate or prevent adverse effects, EPA may notify you of additional measures you must implement in order to be eligible for coverage under this permit.

Industrial Multi-Sector General Permit Review

STOP

Please review that all of the information on your NOI is correct. If the information is correct, please print this page for your records until you receive an email with the attached NOI from EPA. If you need to edit any of the information, please click on "Edit" beside the appropriate section. Then click the "Send to Certifying Official" button to go forward.

State: NH
Project Located on Indian Land? No
Is this industrial facility a federal facility? No
General Permit Number you are seeking coverage under: NHR050000
Permit Tracking Number: NHR05BU69

Operator Information (Edit)

Operator/Company Name: NH DES
IRS EIN:

Confirm all information; the next and final step is submitting your NOI.

Confirmation

➤ Via eNOI

- You will receive a “Thank You” page *and* an automatically generated email will be sent to you.

➤ Via Paper

- As soon as the form is entered into the system by the NOI Call Center a letter will be sent to the operator address specified on the form.
